L8500-SABL

Grade: L6
Cleaning Code:
Introduction Date: 04/01/2024

Material Description: Hand applied dyes to American raw material impart a transparent clarity. A heavy substrate gives leather a sophisticated appearance. The absence of pigments adds to the natural softness of the hides. A protective top coat creates the exquisite touch. Due to depth and transparency of this leather, natural markings will be exposed and should not be confused as defects. Dyes and waxes are hand rubbed in North Carolina.
